Mitigating chemical residues in Latin America through the promotion of biopesticides

The aim of this PPG is to prepare a project proposal to develop and implement a coordinated regional approach on biopesticides in the Latin American region, which would support the inclusion of biopesticides as part of Integrated Pest Management (IPM) programmes. This PPG complements STDF’s work on biopesticides in Africa and Asia.

**STDF/PPG/753**

**Status**
Completed

**Start Date**
01/04/2021

**Project Value (US$)**
$32,928

**STDF Contribution (US$)**
$32,928

**Beneficiaries**
Argentina
Bolivia
Colombia
Costa Rica
Ecuador
El Salvador
Guatemala
Honduras
Nicaragua
Peru
Paraguay
