

Safe Food in Africa (SAFA)

Joint FAO-IAEA-UNIDO programme proposal

Safe Food in Africa

OBJECTIVE:

To assist African Member States in strengthening their national food safety systems by enhancing the capabilities of competent authorities and/or relevant institutions and stakeholders, and by promoting good practices of agrifood businesses and food safety culture.

1

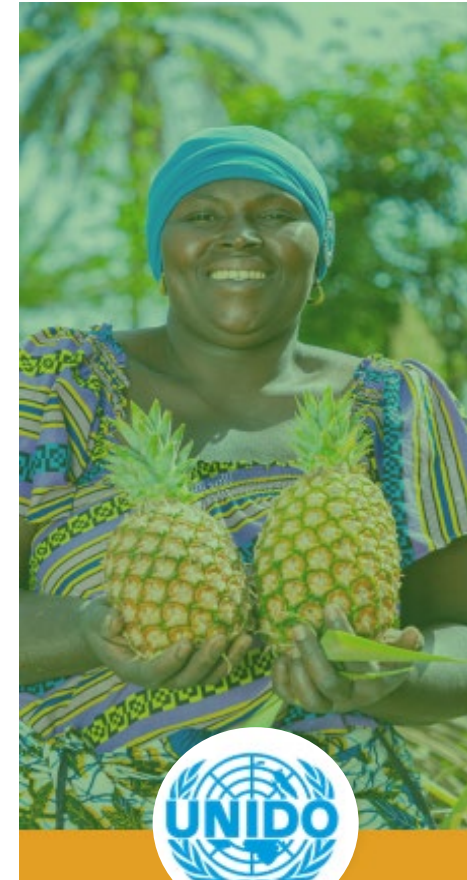

Improved selected competencies of food safety authorities and relevant stakeholders in line with Codex Alimentarius principles and guidelines for national food control systems

IAEA

2

Enhanced chemical and biological hazard testing, monitoring and regulatory capabilities as well as authenticity and irradiation practices

3

Enhanced application of food safety culture and related good practices among relevant stakeholders

COUNTRY SELECTION CRITERIA

National assessment using FAO/WHO food control system assessment tool

Country priorities identified in National Food Safety Strategy

Linkage with Trade Competitiveness and Market Access Programme funded by the EU and implemented by UNIDO

Existing collaboration with IAEA

Safe Food in Africa
