Animal and Plant Health Inspection Service (APHIS) is responsible for safeguarding agriculture and natural resources from the risks associated with the entry, establishment, or spread of animal and plant pests and noxious weeds.

The APHIS Application Access page is used to log into the following systems:

**Phytosanitary Certificate Issuance & Tracking System (PCIT)**

PCIT system tracks the inspection of agricultural products and certifies compliance with plant health standards of importing countries. This capability provides APHIS/PPQ better security, reporting functions, and monitoring capabilities for exported commodities.

**Veterinary Export Health Certification System (VEHCS)**

VEHCS system facilitates creation and endorsement of animal health certificates for export. It helps APHIS/VS to certify compliance with importing countries requirements, and to automate tracking and reporting of exported live animals.

# PCIT Features

- Central tool for the US Export Certification Program
- Role based with +50,000 users worldwide
- 10 million+ phytosanitary certificates issued overall
- Generates 750,000 phytosanitary certificates per year = 1 1/2 certificates per minute - 24/7/365
- Trains and tracks Authorized Certification Officials (ACOs)
- Generate three certificates
  - 35 State phytosanitary certificates (PC),
  - *Phytosanitary certificate Export* and Reexport
- Standardized process = greater consistency – guiding you down the correct path
- Validation of US certificates via the PCIT Certificate viewer with a QR code
- ePhyto capability – Receive from 63 trading partners. Receive from 85
- Held shipment tracking
- Notice of non-compliance tracking

# PCIT Generated Phytosanitary Certificate

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to, a collection of information unless it displays a valid OMB control number. The valid OMB control numbers for this information collection are 0279-0002, 0264, and 0245. The time required to complete this information collection is estimated to average 1.2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection information.

OMB Approved  
0279-0002  
0264 and 0245

### Certificate Details

**Status:** ISSUED

**Certificate Name:** Phytosanitary Certificate

**Certificate Number:** F-F-24033-00051329-7-N

**Place of Issue:** Riverdale, Maryland

**Date Issued:** 02/07/2023

**Date Inspected:** February 07, 2023

**Issuer Party:** APHIS

**Authorized Officer:** Mike Perry

### Export and Import Details

**Export Country:** USA

**Import Country:** Antarctica

**Point Of Entry:** McMurdo

**Means of Conveyance:** Maritime transport

### Commodity Details

Commodities List								
	Common Name	Botanical Name	Part	Quantity	Unit	Number of Packages	Package Description	Certified Origin(s)
1.	Soybean	Glycine max	Grain	10523.88	Metric Tons		In bulk	USA

### Treatment Details

(1) February 07, 2023; Fumigation; Methyl bromide 32 g; 2 Hours 23.6 C; Fumigation test

### Additional Certificate Details

**Additional Declarations:** Import Permit Number ML54346064543 was presented.

**Additional Official Phytosanitary Information:** N/A

United States Department of Agriculture

# Electronic Phytosanitary Certification (ePhyto)

# IPPC ePhyto Solution

- Project to facilitate the electronic/digital exchange of phytosanitary certificates
- Allows all countries to participate (national system or the GeNS) on the same playing field in ePhyto
- Funding from the UN, IPPC countries and the World Bank
- Provides credibility, integrity, security, and prevents fraud
- Expedites and facilitates trade
- Reduces certification costs
- Equivalent to paper certificates
- International standardization and harmonization
- Currently the US exchanges with 80 countries

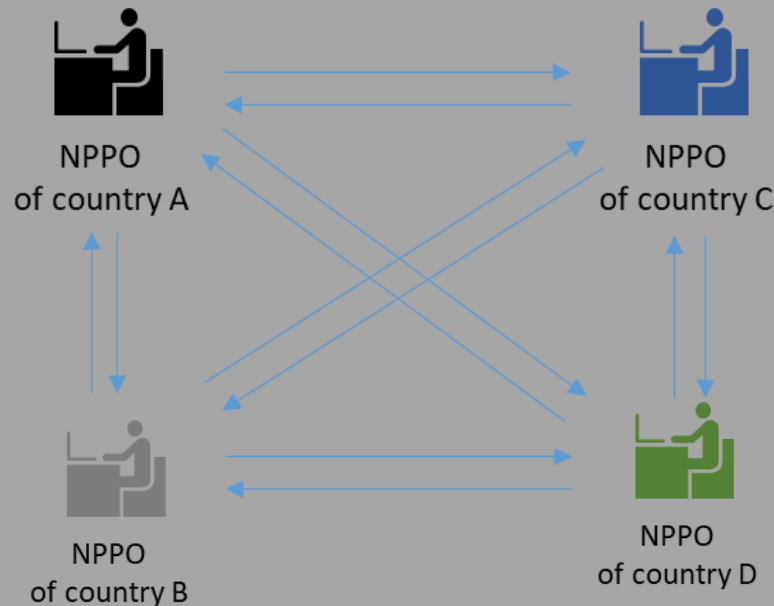

Improving Safe Trade in Plant and Plant Products

# In the Beginning...

- **Point-to-point:**
- Directly between NPPOs
- Separate bilateral arrangements with each country to facilitate exchange
- High costs for establishing (@\$40K-120K per connection)
- Annual costs (\$20K-100K) for maintaining all the connections

# IPPC ePhyto Solution

The IPPC ePhyto Solution consists of three components:

## 1. HUB

- Centralized system to facilitate exchange between NPPO national systems
- Single message format
- Data within the message is highly standardized

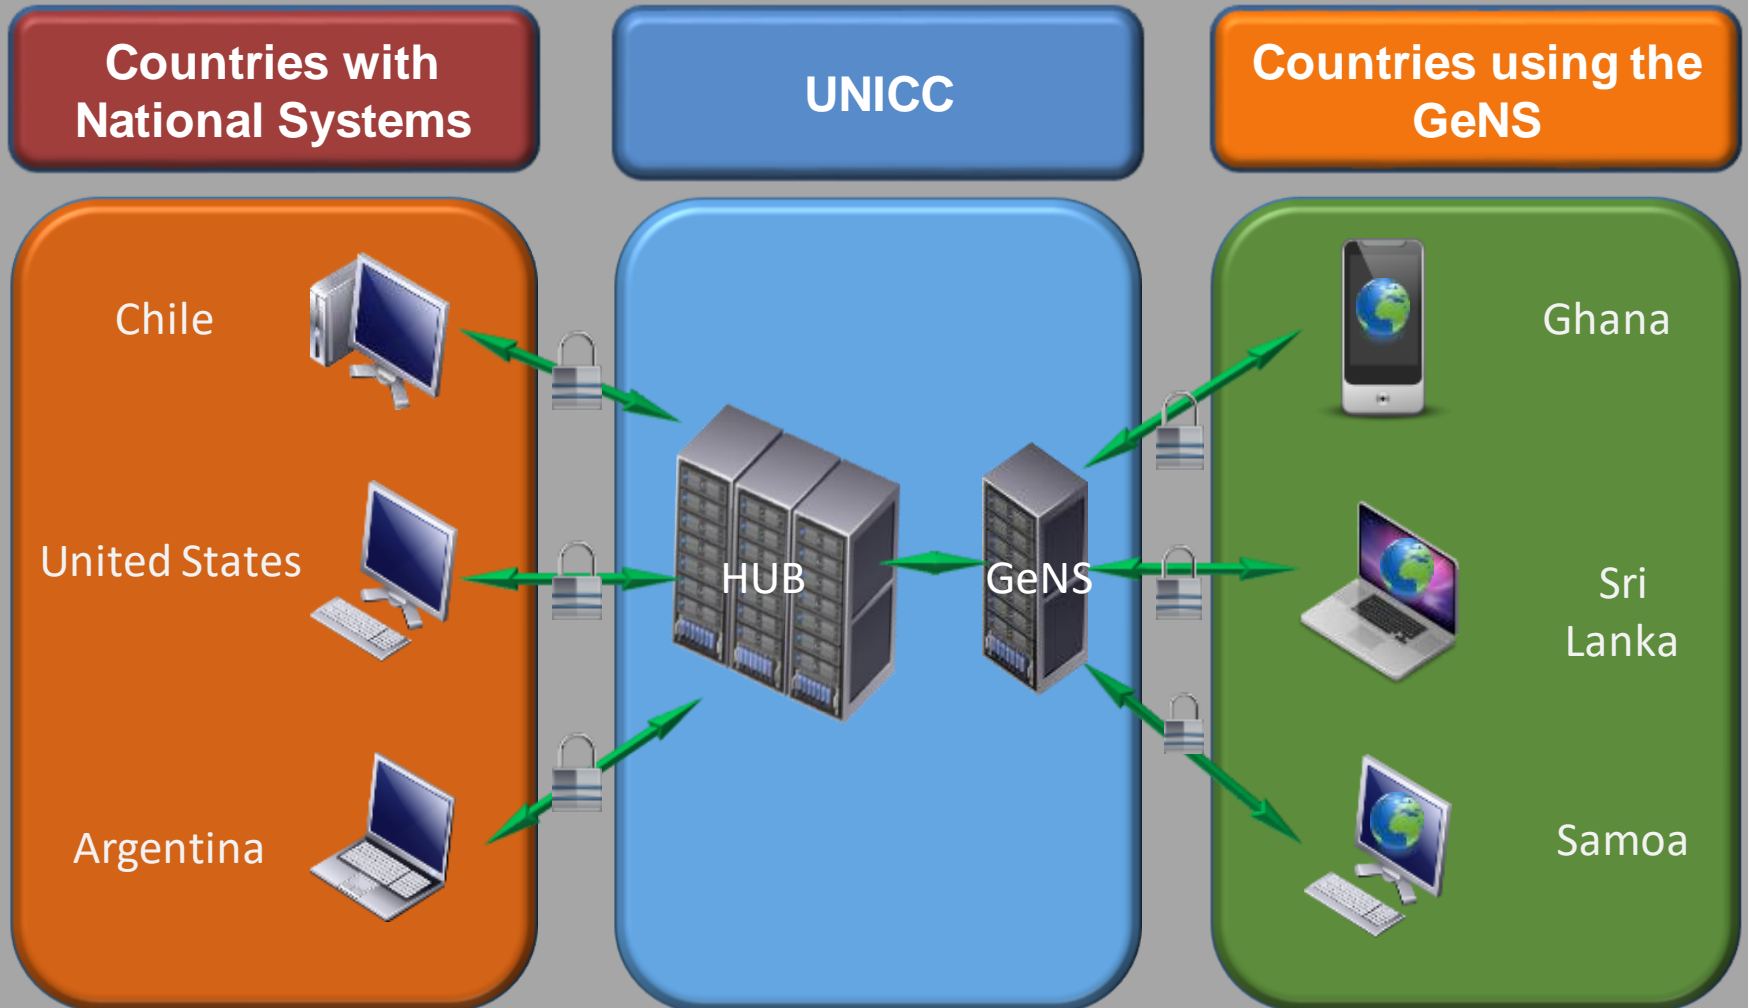

## 2. Generic ePhyto National System (GeNS)

- Web based system
- Only requires computer and internet
- Any participating country automatically connect to Hub exchange
- No development needed for countries adopting the GeNS
- Free to use

## 3. Harmonization

- Ongoing
- Leads to further automation
- Follows ISPM 12

# IPPC ePhyto Solution: HUB and GeNS

# ePhyto Message Example
