2. Infrastructure for competitiveness and social welfare	
Basic services Infrastructure investment to expand Governance and efficient sanitation sector, waste	
	ternatives in urban areas;
3. Institution for growth and social welfare	
services second-tier vehicles markets and financial se	reforms for improved credit ervices
Fiscal efficiency and sustainability Institutional strengthening at national and subnational levels; continued support to decentralization agenda Tax policies and administration agenda	nt
initiatives	ventions in citizen's and anti-money laundering
4. Competitive regional and global international integration	
Trade and Integration Integrat	ms among multiple trade rity and logistics; regulatory and labor migration; trade try infrastructure projects; I sovereign operations externalities; large-scale
5. Protect the environment, respond to climate change and enhance food security	
Environment and climate change Development of institutional and regulatory frameworks to allow investments in sustainable transport, alternative fuels, renewable energy and energy efficiency Climate change adaptate as water, agriculture and use of sustainable (inclusion sources, energy efficient practices, and carbon fin natural disasters	nance; risk management for
Food security Agricultural development; land tenure Increasing food security productivity	y through agrıcultural

Focus for SPS:

- 1.SPS regional integration/initiatives (harmonization regulation, institutional capacity whithin LAC trade blocs)
- 2.SPS/trade facilitation: strengthen border operations, reduce costs and speed up the clearance process of agricultural products at customs

Trade regulation simplification: Regional harmonization of NTBs

Trade facilitation: Reduce costs of doing business across borders

SPS / TRADE FACILITATION

Key activities include:

- •Digitalize documentary procedures: issuance of export/import SPS certificate on-line/ single window.
- •Quarantine: Upgrade national border quarantine services (including harmonization of laws and procedures, infra-structure)
- •Databases: support creation of database for records of pests and diseases of plants and animals
- •Capacity building: Foster human capacity on documentary procedures for pest surveillance, export/import certification, inspection
- Clearance: reduce physical inspections at the border in favor of a <u>risk analysis</u> management approach
